Electricity: Basement- Storage room on the left	Water: Basement- Storage room on the left	Gas: Basement- Storage room on the right	
Smoke detector(s): One in every room	Carbon monoxide detector(s): Kitchen wall, next to garage entrance door	Fire extinguisher(s): Kitchen wall, next to garage entrance door	
Provider Responsibilities in an Emergency			
Continuation of care: infant, toddler, chronic medical, disabilities, food	*Infant (unopened) formula/can opener, baby food/spoon, bottle, diapers/wipes, blanket, toys, emergency food, water, Parent/Child Emergency Contact forms, battery-operated radio, extra batteries, and a small first aid kit will be stored in the Emergency Bag (HALL CLOSET, RIGHT OUTSIDE OF PLAYROOM- RED BOOKBAG) at all times, checked and updated weekly. *Medications/forms (also stored in hall closet-- beside the Emergency Bag) will be placed INTO the Emergency Bag and taken to evacuation site. *At-home retired spouse (also Provider's sub) can assist Provider with meeting needs of children with disabilities. *Food/necessities for ALL enrolled children are stored in Emergency Bag, taken along in any emergency situation.		
Lockdown/Shelter-in-Place Procedures			
Location of emergency supplies: Hall Closet, right outside of playroom, in RED BOOKBAG		Shelter location within home: *Behind large sofa in living room, away from doors and windows *Provider can scoot sofa forward for children/Provider to shelter behind	
Plan date: February 15, 2022	Date substitute was trained on this plan: February 15, 2022		Plan is due to be reviewed: March 15, 2022 (reviewed monthly)

Evacuation: In case of the need to evacuate the home, the following procedures will be followed:

Evacuation routes/exits	*During routine fire/disaster drills, we practice getting to a primary AND secondary exit, so children are familiar with where to go to get out of the building in different emergency scenarios. *EXITs are clearly marked by an evacuation diagram.	
Evacuating infants/toddlers	*Infants and toddlers will be evacuated together using a stroller and/or wagon, which are located at both exits. *If evacuating through a window is necessary, children will be passed out the window first, using any available items to place them on the ground.	
Notification	*Once all children are safely evacuated, 911 will be called FIRST. *THEN, parents will be notified of the evacuation via a group text message to parents of enrolled children. The text message will read "CODE RED-SITE A" OR "CODE RED-SITE B" (to save precious time by avoiding a lengthy text back and forth to each family). *If "SITE A" is sent in the text message, the children will be evacuated to the CLOSER evacuation site, DSCYF (Department of Services for Children, Youth, and Families) at 1825 Faulkland Road. *If "SITE B" is sent, the children will be evacuated to the FURTHER-AWAY evacuation site, MILL CREEK FIRE CO., STATION 21, at 3808 Kirkwood Highway. IMPORTANT: PARENT/GUARDIAN SHOULD IMMEDIATELY REPLY "OK" TO THE GROUP TEXT, SO PROVIDER KNOWS THE PARENT/GUARDIAN RECEIVED THE MESSAGE AND WILL BE PICKING THEIR CHILD UP IMMEDIATELY FROM THE CODE RED-SITE A OR CODE RED-SITE B EMERGENCY EVACUATION SITE.	
Emergency kits/information	The Emergency Bag will be taken to the evacuation site, IF POSSIBLE. If circumstances prevent that, parents/guardians will still be notified, as parents/guardians phone numbers and emergency contact info is kept in Provider's phone and is updated as needed.	
Evacuation sites	In-neighborhood (less than 1 mile away): DSCYF (Dept of Services for Children, Youth, & Families) 1825 Faulkland Road, Wilmington DE 19805 Phone: 302-633-2500 0.6 miles from 103 Rothwell RD, Wilmington DE 19805	Out-of-neighborhood (greater than 2 miles away): Mill Creek Fire Company, Station #21 3808 Kirkwood Highway, Wilmington DE 19808 Phone: 302-998-8911 2.2 miles from 103 Rothwell RD, Wilmington DE 19805
Transportation to evacuation locations	*The Provider will take a headcount both BEFORE and AFTER leaving the day care grounds. *Infants & toddlers will be pushed in a stroller and/or wagon; older children will walk, with hands on the walking lead, when going to SITE A. *If SITE B is necessary, ALL infants, toddlers, and children will be loaded into Provider's –and/or at-home spouse's– vehicle(s), using car seats WHENEVER POSSIBLE, to be transported out of the neighborhood to SITE B. *After arriving at either SITE, Provider will take a headcount again.	

Shelter-in-place: If we need to stay put due to a weather/security threat, the following procedures will be followed:

Location	*Provider will take a headcount, based on the day's attendance sheet. *Children and Provider will then quickly assemble in the living room (if time allows) where Provider will scoot forward the large living room sofa. The children and Provider will gather behind the sofa, referred to as the SAFETY LOCATION (away from windows and doors), hunched down, with hands protecting head, and remain quiet (to the best of their abilities). *If there is no time to move to the SAFETY LOCATION, Children and Provider will quickly assemble into a corner of the room they are currently in, away from windows and doors, hunched down, with hands protecting head, and remain quiet (to the best of their abilities). *In the case of a LOCKDOWN, doors and windows will be quickly locked and the window blinds will be closed. *A headcount will take place at any transition. *A SAFETY LOCATION practice drill will be conducted monthly, along with the fire and disaster drills.	
Emergency supplies	*Emergency Kit (RED BOOKBAG) with food, water, formula/can opener, bottle, baby food/spoon, toys, diapers/wipes, blanket, small first aid kit, battery-powered radio, extra batteries, & parent/child emergency contact information forms is located in the HALL CLOSET, JUST OUTSIDE THE PLAYROOM. *A working, charged cell phone- which the Provider always carries on her person- will be taken to the evacuation site.	

Notification	Parents/Guardians will be notified once the immediate threat has passed, and after 911 has been called.
--------------	---

Parent reunification: To reunite children with parents/guardians or emergency contacts as soon as it is safe:

Notification	*Upon enrollment into the Day Care, parents/guardians will be provided all information needed regarding BOTH evacuation sites, including examples of why the evacuation site might be utilized, the address of the site, the phone number of the site, how the children will be transported to the site, communication route (group text message), and an explanation of "CODE RED-SITE A" AND "CODE RED-SITE B". *Parent's/Guardian's phone numbers and all emergency contact information for their child(ren) is stored in the Provider's phone AND in the RED BOOKBAG Emergency Bag.
Release	Children will ONLY be released to contacts on the child's emergency contact information form, and only with proper photo ID.

February 15, 2022

Dear Parent / Guardian:

In the event of an emergency, I have outlined the below response plan. Please know that I will attempt to notify you, so please keep your emergency contact information up to date. Additionally, please keep your phone always charged and with you, when your child is in my care. Keep this letter with you so that you will know where and how to contact me and pick up your child in the event of an emergency.

Evacuation / Relocation

- 1. If the emergency is confined to the immediate area of my day care home, e.g. fire, and the children cannot stay on the premises, I will take the children to SITE A, which is the DSCYF (Department of Services for Children, Youth, and Families), located at 1825 Faulkland Road, Wilmington. This location is located right around the corner and down the street, just 0.6 of a mile from the day care home. The children and I will remain at this location (near front entrance) while you (or your emergency contact) are notified of the situation, via a group text message to parents/guardians of all enrolled children. The text message will read "CODE RED – SITE A".**
Parents/guardians should immediately respond to the text message with "OK", so I know you saw the message and that you know to proceed to SITE A to pick up your child(ren).
- 2. If the emergency is more widespread, encompasses a larger area (such as the neighborhood) due to an environmental threat, e.g. flood, and the children cannot remain in the immediate area, I will transport the children to SITE B, which is the Mill Creek Fire Company, Station #21, located at 3808 Kirkwood Highway, Wilmington. This location is located 2.2 miles from the day care home. The children will be transported to this location via my vehicle, and/or my spouse's (at-home, retired) vehicle. Car seats will be used WHEN POSSIBLE to get to this emergency location. The children and I will remain at this location while you (or your emergency contact) are notified of the situation, via a group text message to parents/guardians of all enrolled children. The text message will read "CODE RED – SITE B".**
Parents/guardians should immediately respond to the text message with "OK" so I know you saw the message and that you know to proceed to SITE B to pick up your child(ren).
- 3. When possible, my substitute (at-home, retired spouse) will help with the evacuation and stay with us at the emergency location.**

Notification

- 1. If you do not respond to the above group text message with "OK" (so I know you got the text), I will repeatedly try to call you as soon as the children and I are safe and it is possible to do so. If I cannot reach you, I will call your emergency contacts. During emergencies, children will only be released to you, or your emergency contacts, with proper ID.**
- 2. Information about the event can be found on local radio stations, or by calling Wilmington's Police @ 302-654-5151 or the Mill Creek Fire Company, Station #21 @ 302-998-8911.**

Emergency Supplies / Shelter-in-Place

1. If we need to shelter in place, we will remain in the day care home, in the SAFETY LOCATION, until the threat has passed. First aid supplies, infant supplies, emergency food/water, etc., are located in the Emergency Bag that will be grabbed during any emergency situation.

Potential Emergency Situations

Though unlikely, the day care home could possibly experience the following emergency situations:

- medical emergencies
- water outage
- electric outage
- heat/AC outage
- gas leak
- fire/smoke
- bomb threat
- ice/snow/blizzard storm
- home intruder
- chemical/hazmat exposure
- severe thunderstorm/windstorm
- tornado
- missing child/kidnapping
- escaped inmate in neighborhood
- shooter in neighborhood
- flood

Please rest assured that I will always remain with- and care for- the children during an emergency to ensure their safety. As always, please don't hesitate to contact me if you have any questions or concerns.

Sincerely,

Jan Hymes, "Mama Jan"
Child Care Provider
